

# **Net Zero Water**

**Marc Kodack**

**ODASA(E&S)**

**January 2012**

# Agenda

- **Welcome and Introductions**
- **Net zero water definition**
- **Metrics**
- **Technical session**

# Net Zero Water Definition

- **Current definition**

- A net zero water installation limits the consumption of freshwater resources and returns water back to the same watershed so not to deplete the groundwater and surface water resources of that region in quantity and quality over the course of a year

# Net Zero Water Metrics

- **Metric 1**

## **Potable water use**

Target: 26% by FY2015

50% by FY2020

Baseline: 2007

# Net Zero Water Metrics

- **Metric 2**

## **Industrial, Landscaping and Irrigation (Agriculture) Water Use**

Target: 20% by FY2015

40% by FY2020

Baseline: 2010

# Net Zero Water Metrics

- **Metric 3**

**Retention of pre-development hydrology**

Target: 100% by FY2012

Baseline: 2010

# Communication

- **Monthly calls**
  - **Format**
- **Engineer On-Line**
