

U.S. ARMY

Western Review of Legislative & Regulatory Actions Region 10

The U.S. Army Regional Environmental & Energy Office

February 2015

The REGION 10 *WESTERN REVIEW* publishes environmental and energy related developments for DoD/Army leaders and installation staff. Covering the four states in Federal Region 10, the *Western Review* gives early notice of legislative and regulatory activities relevant to DoD interests. The *Review* also helps installations meet ISO 14001 environmental management system requirements. Find out more about the Army Regional Environmental and Energy Offices [here](#). Click [here](#) to browse back issues of the *Western Review*. To read back issues of other Regional Office *Reviews*, click on a region of the REEO website's U.S. map and then select "Publications." To receive a copy of this electronic publication, [send a subscription request](#).

Flood Risk Management

In January 2015, President Barack Obama issued an [Executive Order](#) (EO) establishing a new flood risk management standard for new and rebuilt federally funded structures in and around floodplains. The standard, published by the Federal Emergency Management Agency (FEMA), is available [here](#).

The standard is intended to ensure that projects are built in floodplains only where there are no practical alternatives. It requires projects to consider risks, changes in climate, and vulnerability in order to ensure projects that are built in floodplains last as long as intended. The standard provides agencies the flexibility to select one of three approaches for establishing the flood elevation and hazard area. They can:

- Use data and methods informed by best-available, actionable climate science;
- Build two feet above the 100-year (1%-annual-chance) flood elevation for standard projects, and three feet above for critical buildings (e.g., hospitals and evacuation centers); or
- Build to the 500-year (0.2%-annual-chance) flood elevation.

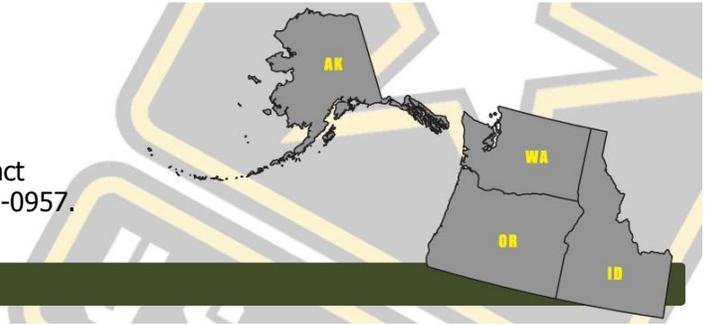

The standard closely tracks flood elevation requirements already adopted in at least 350 jurisdictions across the country. It does not alter flood standards for levees and will not affect the standards or rates of the National Flood Insurance Program.

In addition, FEMA also issued [draft flood risk management standard implementing guidelines](#). The guidelines will be used by federal agencies (including military departments) to develop their own agency-specific guidelines and procedures in order to comply with requirements in the standard.

For additional information, view this [fact sheet](#) released by the White House Council on Environmental Quality (CEQ) or this White House [news article](#).

Region 10

For more information on any state issues in Region 10, contact [Park Haney](#), Region 10 Environmental Coordinator (303) 844-0957.

AIR

OPEN BURNING, VISIBLE EMISSIONS FROM SOLID FUEL HEATING DEVICES, AND FAIRBANKS: PM2.5 The Alaska Department of Environmental Conservation (ADEC) [adopted](#) new air quality rules and a State Implementation Plan (SIP) for the Fairbanks North Star Borough fine particulate matter (PM2.5) nonattainment area. The final rules and air quality plan address the use of wood stoves and solid fuel heating devices, outdoor open burning, visible emissions (opacity), commercial wood selling, and the grandfathering of wood stoves from emission standards. The rules prohibit most open burning during winter months, add clarifying language regarding a local government's powers or obligations, establish federally required air episode levels for PM2.5, and revise solid fuel-fired heating device visible emission regulations statewide. The final rules were effective 2 FEB 15. For more information, contact [ADEC](#).

WATER

WATER PERMIT ISSUANCE PLAN ADEC published a list of permits, referred to as its [permits issuance plan](#), that it plans to reissue in 2015-2016.

MSGP FOR INDUSTRIAL STORMWATER DISCHARGES ADEC [released](#) for public review the final Alaska Multi-Sector General Permit (MSGP) for stormwater discharges associated with industrial activity. The permit ([AKR060000](#)) authorizes and sets conditions on the discharge of pollutants associated with industrial activity to waters of the United States within Alaska. Comments were due 27 JAN 15. For more information, contact [William Ashton](#) at (907) 269-6283 or view this [fact sheet](#).

WATER QUALITY STANDARDS ADEC [is proposing](#) to amend state water quality standards. The amendments would update language pertaining to methodology and regulatory citations and update references. A public hearing is scheduled for 25 FEB 15. [Comments](#) are due 10 MAR 15. For more information, contact [Denise Elston](#) at (907) 465-5018.

TRIENNIAL REVIEW ADEC [is inviting public comment](#) on potential issues and updates associated with its triennial review of state water quality standards. The federal Clean Water Act (CWA) requires states to conduct a review of topics associated with state water quality standards on a triennial basis. The review is a planning process (not a rulemaking) and will not directly result in new regulations. Comments are due 27 FEB 15. For more information, contact Brock Tabor at (907) 465-5185 or visit ADEC's [triennial review website](#).

LEGISLATIVE DEVELOPMENTS

The [Alaska 2015 legislative session](#) began 20 JAN 15 and adjourns 17 APR 15. An * indicates the first time a bill appears in the 2015 Review.

<i>Alaska Bill Number, Sponsor, and Description</i>	<i>Bill Introduced</i>	<i>Passed 1st House</i>	<i>Passed 2nd House</i>	<i>Status</i>

TOXICS

RADIATION CONTROL RULES The Idaho Department of Health and Welfare [repealed and readopted](#) Chapter 16.02.27 (Idaho Radiation Control Rules). The readopted rule aligns the chapter with the requirement under Section 56-1043, Idaho Code, for the department to license (rather than register) x-ray producing devices and to collect licensing fees. The final rule becomes effective upon adoption by the Idaho State Legislature. For more information, contact [Katey Anderson](#) at (208) 334-2235.

LEGISLATIVE DEVELOPMENTS

The [Idaho 2015 legislative session](#) began 12 JAN 15 and is estimated to adjourn 3 APR 15.

AIR

VOLUNTARY EMISSIONS REDUCTIONS The Oregon Public Utility Commission [adopted rules](#) implementing [Senate Bill 844 \(2013\)](#). The rules establish a voluntary emission reduction program to provide incentives for a utility furnishing natural gas to invest in projects that reduce emissions and provide benefits to the customers of that utility. The final rules were effective 3 DEC 14. For more information, contact Diane Davis (503) 378-4372.

TOXICS

PROHIBITION ON NEONICOTINOID PESTICIDES The Oregon Department of Agriculture [is proposing](#) to prohibit the application of any product containing neonicotinoid insecticides, regardless of application method, to linden, basswood or other Tilia species. The prohibition would extend to the insecticides dinotefuran, imidacloprid, thiamethoxam, and clothianidin. Comments were due 21 JAN 15. For more information, contact Sue Gooch at (503) 986-4583.

WASTE

HAZARDOUS WASTE RULES The Oregon Department of Environmental Quality [is proposing](#) to amend state hazardous waste rules. The amendments would:

- Align Oregon hazardous waste rules with federal rules;
- Incorporate previously adopted but subsequently amended federal rules;
- Incorporate some federal regulations for the first time; and
- Allow Oregon to apply for Environmental Protection Agency (EPA) permission to continue operating Oregon’s Resource Conservation and Recovery Act program under federal authority.

A public hearing is scheduled for 17 FEB 15. Comments are due 20 FEB 15. For more information, contact [Jeannette Acomb](#) at (503) 229-6303.

LEGISLATIVE DEVELOPMENTS

The [Oregon 2015 legislative session](#) began 2 FEB 15 and is estimated to adjourn 11 JUL 15. An * indicates the first time a bill appears in the 2015 Review.

<i>Oregon Bill Number, Sponsor, and Description</i>	<i>Bill Introduced</i>	<i>Passed 1st House</i>	<i>Passed 2nd House</i>	<i>Status</i>
AIR/CLIMATE CHANGE				
* HB 2499 <i>Representative Gail Whitsett (R)</i> Proposes to prohibit the Department of Environmental Quality from adopting any air (or water) quality standard that exceeds that imposed by federal law.	✓			
* HB 2572 <i>Representative Phil Barnhart (D)</i> Proposes to require carbon footprint labeling on all consumer products sold or offered for sale in state on and after 1 JAN 16.	✓			

<i>Oregon Bill Number, Sponsor, and Description</i>	<i>Bill Introduced</i>	<i>Passed 1st House</i>	<i>Passed 2nd House</i>	<i>Status</i>
*HJR 10 <i>House Interim Committee on Revenue</i> Proposes to allow the legislature to tax carbon emissions in order to reduce carbon emissions and carbon fuel use.	✓			
*SB 21 <i>Senate Interim Committee on Environment and Natural Resources</i> Proposes to establish a task force on clean air fee or tax implementation to develop recommendations to implement a clean air fee or tax.	✓			
ENERGY				
*SB 95 <i>Senate Interim Committee on Veterans and Emergency Preparedness</i> Proposes to address safety systems for fuel distribution. Requires facilities dispensing class I flammable liquids (or diesel) to have a manually operated system capable of dispensing fuel if its electrical power supply is disrupted.	✓			
*SB 477 <i>Senator Chris Edwards (D)</i> Proposes to require electric companies to reduce electricity from coal-derived generating resources to zero on or before 1 JAN 25.	✓			
LAND USE				
NATURAL RESOURCES				
OTHER				
*HB 2189 <i>House Interim Committee on Energy and Environment</i> Proposes to require the Department of Health to adopt standards for labeling articles containing "hazardous substances." Defines hazardous substance.	✓			
*HB 2241 <i>Representative John Davis (R)</i> Proposes to address cleanup of hazardous waste. Requires the Department of Environmental Quality to develop a single process to meet state and federal requirements for hazardous waste cleanup and release from liability.	✓			
*HB 2589 <i>Representative Paul R. Holvey (D)</i> Proposes to prohibit the application of neonicotinoid pesticides in the state.	✓			
WASTE				
*SB 245 <i>at the request of Governor John A. Kitzhaber</i> Proposes to modify solid waste facility permit fees. Adjusts tipping and other fees. Authorizes the Department of Environmental Quality to establish compost facility fees.	✓			

Oregon Bill Number, Sponsor, and Description	Bill Introduced	Passed 1st House	Passed 2nd House	Status
<p>*SB 263 <i>at the request of Governor John A. Kitzhaber</i> Proposes to expand recycling of solid waste. Updates statewide goals for recovery of materials from solid waste. Establishes specific recovery goals for specified materials.</p>	✓			
<p>*SB 412 <i>Senator Arnie Roblan (D)</i> Proposes to define when rock, gravel, sand, silt, and other similar materials removed from waters of the state are not solid waste.</p>	✓			
WATER				
<p>*HB 2498 <i>Representative Gail Whitsett (R)</i> Proposes to prohibit the Department of Environmental Quality from adopting water quality standards that exceed those imposed by federal law.</p>	✓			
<p>*SB 262 <i>at the request of Governor John A. Kitzhaber</i> Proposes to increase fees associated with the oil spill prevention program.</p>	✓			

THREATENED AND ENDANGERED SPECIES

TUFTED PUFFIN The Washington Department of Fish and Wildlife [is proposing](#) to add the tufted puffin (*Fratercula cirrhata*) to the state list of endangered species. The department has reviewed data indicating the species has strongly declined in recent decades, both in numbers of birds present and in numbers of active breeding sites. According to the department, the data indicate that if the current rate of decline continues, the species is at serious risk of extirpation in Washington over the next few decades. Comments were due 14 JAN 15. A public hearing was held 6-7 FEB 15. For more information, contact [Nate Pamplin](#) at (360) 902-2515.

WATER

WATER QUALITY STANDARDS The Washington Department of Ecology (WADOE) [is proposing](#) to amend state water quality standards found at Washington Administrative Code (WAC) Chapter 173-201A (Water Quality Standards). The rulemaking combines two previously (2013) proposed rulemakings into a single amendment. The rulemaking would adopt new human health criteria into state water quality standards and update language regarding implementation of the standards. [Public hearings](#) are scheduled for 3, 4, and 12 March 15. Comments on the [proposed amendments](#) are due 23 MAR 15. For more information, contact [Cheryl Niemi](#).

BIOSOLIDS GENERAL PERMIT WADOE [announced](#) that it intends to develop a new general permit for biosolids management (biosolids general permit) because the existing biosolids general permit will expire August 2015. The new biosolids general permit will apply to public and private entities that treat, store, transfer, apply, or dispose of biosolids in the state. This permit is the primary regulatory mechanism for approving the final use or disposal of biosolids in Washington. WADOE will use the standards for biosolids management adopted in chapter 173-308 WAC and accepted best management practices to assure that conditions in the biosolids general permit protect human health and the

environment. The department is requesting public comment on whether it should permit facilities that use or dispose of biosolids under a general permit or under individual permits. Comments are due 20 FEB 15. For more information, contact [Rebecca Singer](#).

LEGISLATIVE DEVELOPMENTS

The [Washington 2015 legislative session](#) began 12 JAN 15 and is estimated to adjourn 14 MAR 15. An * indicates the first time a bill appears in the 2015 Review.

<i>Washington Bill Number, Sponsor, and Description</i>	<i>Bill Introduced</i>	<i>Passed 1st House</i>	<i>Passed 2nd House</i>	<i>Status</i>
AIR/CLIMATE CHANGE				
* HB 1314 <i>Representative Joe Fitzgibbon (D)</i> Proposes to establish the Carbon Pollution Accountability Act. Requires the Department of Ecology to implement a carbon market to allow national and international carbon trade. Companion bill is SB 5283.	✓			
* SB 5283 <i>Senator Kevin Ranker (D)</i> Proposes to establish the Carbon Pollution Accountability Act. Requires the Department of Ecology to implement a carbon market to allow national and international carbon trade. Companion bill is HB 1314.	✓			
* SB 5330 <i>Senator John Braun (R)</i> Proposes to require the Department of Ecology to analyze certain stage II gasoline vapor recovery system requirements.	✓			
ENERGY				
LAND USE				
NATURAL RESOURCES				
* HB 1200 <i>Representative Elizabeth Scott (R)</i> Proposes to address enforcement of Department Fish and Wildlife rules or policies. Prohibits the department from enforcing rules/policies until they have been adopted into the state administrative code and ratified by the Legislature. Allows the Governor or either branch of the Legislature to void a rule or policy developed by the Department of Fish and Wildlife. Companion bill is SB 5372.	✓			
* HB 1225 <i>Representative Joel Kretz (R)</i> Proposes to address state listing of endangered species. Requires the Fish and Wildlife Commission to consider removing/reclassifying state-listed threatened/endangered/sensitive species on a regional basis, for species listed on a statewide basis.	✓			

<i>Washington Bill Number, Sponsor, and Description</i>	<i>Bill Introduced</i>	<i>Passed 1st House</i>	<i>Passed 2nd House</i>	<i>Status</i>
<p>*HB 1708 <i>Representative Tom Dent (R)</i> Proposes to clarify that irrigation district facilities are not within the definition of shorelands. Companion bill is SB 5554.</p>	✓			
<p>*SB 5372 <i>Representative Judith Warnick (R)</i> Proposes to address enforcement of Department Fish and Wildlife rules or policies. Prohibits the department from enforcing rules/policies until they have been adopted into the state administrative code and ratified by the Legislature. Allows the Governor or either branch of the Legislature to void a rule or policy developed by the Department of Fish and Wildlife. Companion bill is HB 1200.</p>	✓			
<p>*SB 5554 <i>Representative Judith Warnick (R)</i> Proposes to clarify that irrigation district facilities are not within the definition of shorelands. Companion bill is HB 1708.</p>	✓			
OTHER				
<p>*HB 1472 <i>Representative Joe Fitzgibbon (D)</i> Proposes to establish the Toxics Reduction Act. Requires the state to identify "Washington priority chemicals," develop chemical action plans for some of the identified chemicals, and establish policy to limit/prohibit the purchase of products containing Washington priority chemicals. Companion bill is SB 5406.</p>	✓			
<p>*HB 1449 <i>Representative Jessyn Farrell (D)</i> Proposes to address oil transportation safety. Regulates oil transport by rail. Companion bill is SB 5087.</p>	✓			
<p>*SB 5087 <i>Senator Christine Rolfes (D)</i> Proposes to address oil transportation safety. Regulates oil transport by rail. Companion bill is HB 1449.</p>	✓			
<p>*SB 5406 <i>Senator Andy Billig (D)</i> Proposes to establish the Toxics Reduction Act. Requires the state to identify "Washington priority chemicals," develop chemical action plans for some of the identified chemicals, and establish policy to limit/prohibit the purchase of products containing Washington priority chemicals. Companion bill is HB 1472.</p>	✓			
WASTE				
<p>*SB 5432 <i>Senator Maralyn Chase (D)</i> Proposes to prohibit retailers from providing carryout plastic bags unless they are compostable.</p>	✓			

<i>Washington Bill Number, Sponsor, and Description</i>	<i>Bill Introduced</i>	<i>Passed 1st House</i>	<i>Passed 2nd House</i>	<i>Status</i>
* SB 5577 <i>Senator John Braun (R)</i> Proposes to require the Department of Ecology to develop a new program for pharmaceutical waste disposal. Abandons the department's April 2008 interim enforcement policy for pharmaceutical waste.	✓			
WATER				
* SB 5491 <i>Senator Linda Parlette (R)</i> Proposes to ensure that reservations of water are maintained for certain future uses included in rules establishing levels and flows.	✓			
* SB 5584 <i>Senator Brian Dangel (R)</i> Proposes to require water quality decisions be based on actual test results.	✓			

Department of Defense Activity

SUNZIA TRANSMISSION LINE ROUTE THROUGH WSMR APPROVED The Department of the Interior [granted final approval](#) to build the SunZia Southwest Transmission Project, a 515-mile high voltage transmission line that will cross the northern tip of White Sands Missile Range (WSMR). In order to gain approval, the developer agreed to bury a five-mile portion of the transmission line to eliminate conflicts with training and weapons testing on White Sands' northern extension.

Federal Activity

AIR

2012 PM2.5 AIR QUALITY DESIGNATIONS EPA issued a final rule establishing air quality designations for most areas of the U.S. for the 2012 PM2.5 primary national ambient air quality standard (NAAQS) of 12 micrograms per cubic meter ($\mu\text{g}/\text{m}^3$) based on a three-year average ([80 FR 2205](#)). EPA classified areas as attainment; nonattainment (moderate); unclassifiable/attainment where data is insufficient to make a determination but forthcoming data will likely allow a determination to be made; or unclassifiable where data is insufficient to determine whether the area is meeting NAAQS or contributing to a nearby violation. For more information, contact [Beth Palma](#) at (919) 541-5432, visit the [rulemaking website](#), or [click here](#) and scroll down to view designations by state.

NAAQS FOR LEAD EPA is proposing to retain the primary and secondary NAAQS for lead ([80 FR 277](#)). EPA has concluded that available evidence supports retaining the current primary and secondary standards of $0.15 \mu\text{g}/\text{m}^3$

(based on a three-month average) without revision. Comments are due 6 APR 15. For more information, contact [Deirdre Murphy](#) at (919) 541-0729 or view this [fact sheet](#).

NESHAP FOR MAJOR SOURCES: INDUSTRIAL, COMMERCIAL, AND INSTITUTIONAL BOILERS AND PROCESS HEATERS EPA is reconsidering its final [31 JAN 13](#) national emission standards for hazardous air pollutants (NESHAP) from new and existing industrial, commercial, and institutional boilers and process heaters at major sources ([80 FR 3089](#)). EPA is seeking comment on three issues raised in the petitions for reconsideration (to view, [click here](#) and scroll to the supplementary information section). In addition, EPA is proposing amendments and technical corrections to the final rule to clarify definitions, references, applicability, and compliance issues. The agency also is proposing to delete rule provisions for an affirmative defense for malfunction in response to a recent court decision on the issue. Comments are due 9 MAR 15. For more information, contact [Jim Eddinger](#) at (919) 541-5426.

AREA SOURCE BOILER RULE EPA is reconsidering its final 1 FEB 13 NESHAP for Area Sources: Industrial, Commercial, and Institutional Boilers (Area Source Boilers Rule) ([80 FR 2871](#)). EPA is seeking comment on five issues raised in the petitions for reconsideration (to view, [click here](#) and scroll to the supplementary information section). In addition, EPA is proposing a limited number of technical corrections and amendments to the final rule to correct inadvertent errors and to clarify certain applicability and implementation issues. The agency also is proposing to delete rule provisions for an affirmative defense for malfunction in response to a recent court decision on the issue. Comments are due 9 MAR 15. For more information, contact Mary [Johnson](#) at (919) 541-5025.

NSPS AND EG FOR EXISTING SOURCES: COMMERCIAL AND INDUSTRIAL SOLID WASTE INCINERATION UNITS EPA is reconsidering its final 7 FEB 13 new source performance standards (NSPS) and emission guidelines (EG) for commercial and industrial solid waste incineration (CISWI) units ([80 FR 3017](#)). EPA is seeking comment on four issues raised in the petitions for reconsideration (to view, [click here](#) and scroll to the supplementary information section). In addition, EPA identified regulatory provisions that require clarification and editorial correction to address inconsistencies and errors. The proposed amendments provide additional clarity and improve the implementation of the [February 2013 final CISWI standards](#). Comments are due 9 MAR 15. For more information, contact [Toni Jones](#) at (919) 541-0316.

LABORATORY ODS USE EXEMPTION EXTENDED EPA extended the laboratory and analytical use exemption for the production and import of class I ozone-depleting substances (ODS) through 31 DEC 21 ([80 FR 3885](#)). The exemption allows the production and import of controlled substances in the U.S. for laboratory and analytical uses that have not been already identified by EPA as nonessential. The final rule was effective 26 JAN 15. For more information, contact [Jeremy Arling](#) at (202) 343-9055.

INTEGRATED SCIENCE ASSESSMENT: NO₂ EPA released the [draft integrated science assessment](#) prepared as part of the review of the primary (health-based) NAAQS for nitrogen dioxide (NO₂) for public comment ([80 FR 5110](#)). The document provides the scientific basis for EPA decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. Comments are due 31 MAR 15. For more information, contact Molini Patel at (919) 541-1492.

ALASKA SIP EPA approved revisions to the Alaska State SIP that update Alaska's adoption by reference of the federal preconstruction permitting regulations for large industrial (major source) facilities located in designated nonattainment areas, referred to as the major Nonattainment New Source Review (or major NNSR) program ([80 FR 832](#)). The final rule was effective 6 JAN 15. For more information, contact [Donna Deneen](#) at (206) 553-6706.

IDAHO SIP EPA is proposing to approve revisions to the Idaho SIP that update the incorporation by reference date of federal air quality regulations to those published in the Federal Register as of 1 JUL 13 ([80 FR 834](#)). In addition, EPA is proposing to partially disapprove Idaho's incorporation by reference of certain provisions of the federal prevention of significant deterioration (PSD) permitting rules that have been [vacated](#). Comments were due 6 FEB 15. For more information, contact [Heather Valdez](#) at (206) 553-6220.

OREGON SIP EPA approved revisions to the Oregon SIP that address interstate transport for attainment of the 2006 PM_{2.5} NAAQS (80 FR 2313). EPA determined that Oregon's existing SIP contains adequate provisions to ensure that air emissions in Oregon will not significantly contribute to nonattainment or interfere with maintenance of the 2006 24-hour PM_{2.5} NAAQS in any other state. The final rule is effective 17 FEB 15. For more information, contact [Karl Pepple](#) at (206) 553-1778.

WASHINGTON SIP EPA partially approved and partially disapproved revisions to the Washington SIP that demonstrate compliance with infrastructure requirements for 2008 ozone and 2010 NO₂ NAAQS (80 FR 1849). The final rule is effective 13 FEB 15. For more information, contact [Jeff Hunt](#) at (206) 553-0256.

COMPLIANCE

E-ENTERPRISE FOR ENVIRONMENT PORTAL In an effort to reduce regulatory burden and optimize information technology resources across government entities, EPA is developing a website that would function as a point of access to information and tools (80 FR 3962). The focus of the so-called "E-Enterprise for the Environment" portal is to provide smart tools to help regulated entities understand their environmental obligations and associated permitting and reporting requirements. The portal would also be used to streamline preparation and submittal of information. EPA is seeking comment on the value of establishing a portal; the functions that it should provide; and whether the name "portal" effectively characterizes the effort. A series of webinars is scheduled for 19 and 23 FEB and 5 MAR 15. Comments are due 90 days from 26 JAN 15. For more information, contact Shana Harbour at (202) 566-2959 or visit EPA's [website](#) for the E-Enterprise Portal.

ENERGY

DEFINITION OF ZERO ENERGY BUILDINGS The Department of Energy (DOE) is seeking to develop a [common definition for zero energy buildings](#) (ZEBs) and is requesting public comment and information related to zero energy definitions, nomenclature, and implementation guidelines (80 FR 499). DOE expects to use the definitions and guidelines in DOE projects that provide guidance on the design or operation of zero energy buildings, and in any DOE programs that recognize or track zero energy buildings. Comments are due 20 FEB 15. For more information, contact [Sonia Punjabi](#) at (202) 287-1866.

RENEWABLE ENERGY AND ENERGY EFFICIENCY BUSINESS DIRECTORY The U.S. Departments of State, Commerce, and Energy are launching the pilot phase of an interactive directory of renewable energy and energy efficiency solutions (80 FR 3219). They are developing an interactive application (app) to serve as a mobile business directory for U.S. clean energy exporters. The app will showcase a diverse array of clean energy goods and services, including renewable energy equipment (solar, wind, geothermal), biofuels, fuel cell power, smart grid technologies, energy efficiency solutions, and U.S.-based services critical to the deployment of clean energy supplies. For more information, contact [Helaina Matza](#) at (202) 647-0716.

HAZMAT

MAILING STANDARDS FOR LITHIUM BATTERIES The U.S. Postal Service (USPS) adopted new standards for mailing lithium batteries (80 FR 3996). The final rules revise [Publication 52](#) (Hazardous, Restricted, and Perishable Mail). The revisions align USPS requirements with recently revised Department of Transportation (DOT), Pipeline and Hazardous Materials Safety Administration (PHMSA) regulations governing the transport of lithium batteries. USPS will continue to allow mailings of lithium metal or lithium-ion batteries packaged with the equipment they operate and lithium-ion batteries packaged without equipment (individual batteries) in domestic air transportation. Under the new standards, packages must not contain more than eight lithium cells or two batteries. Cells and batteries must be within USPS limitations for lithium metal content (or watt-hour rating). Packages must comply with marking requirements and be

accompanied by documentation. The final rule is effective 2 MAR 15. For more information, contact Joan Hall at (212) 330-5332.

HAZMAT PACKAGING AND TRANSPORT: ALIGNMENT WITH INTERNATIONAL STANDARDS PHMSA amended its [hazardous materials regulations \(80 FR 1075\)](#). The amendments align federal rules with international standards, effective 1 JAN 15. The amendments are intended to ensure that domestic hazard classification, hazard communication, and packaging requirements are consistent with those employed throughout the world. For more information, contact Steven Webb at (202) 366-8553.

HAZARDOUS MATERIAL REGULATIONS PHMSA is proposing to make updates and clarifications to its hazardous material regulations ([80 FR 3787](#)). Among the proposed amendments: removing the packing group (PG) II designation for certain organic peroxides, self-reactive substances and explosives; incorporating requirements for trailers of manifolded acetylene cylinders; and providing requirements to allow for shipments of damaged wet electric batteries. In addition, PHMSA is proposing to revise requirements for the packaging of nitric acid, testing of pressure relief devices on cargo tanks, and shipments of black or smokeless powder for small arms. Comments are due 24 MAR 15. For more information, contact Neal Suchak at (202) 366-8553.

NATURAL RESOURCES

NEPANODE is a geospatial and document management system made freely available to federal staff and contractors working to implement the National Environmental Policy Act (NEPA) and related environmental review and permitting processes. It is a pilot effort to provide a shared service for NEPA staff hosted on the cloud and using only free and open source software.

ENHANCING COORDINATION OF NATIONAL EFFORTS IN THE ARCTIC President Obama issued [EO 13689](#) (Enhancing Coordination of National Efforts in the Arctic) on 26 JAN 15. The EO establishes an Arctic executive steering committee tasked to provide guidance to executive departments and agencies and enhance coordination of federal Arctic policies. The steering committee is required to establish a working group tasked to identify potential areas of overlap and duplication between and within agencies with respect to implementation of Arctic policy and strategic priorities. The working group will develop recommendations to increase coordination, reduce duplication of effort, and address potential gaps in implementation. The Deputy Secretary (or equivalent) of Defense is assigned membership to the steering committee.

FEDERAL RESOURCE MANAGEMENT AND ECOSYSTEM SERVICES GUIDEBOOK The [Federal Resource Management Ecosystem Services Guidebook](#) is a website that serves as a training manual to streamline the management of ecosystem services. With the guidebook, resource managers can create clear, workable plans that prioritize the work needed to establish and maintain resilient communities. It discusses ways ecosystem services are and can be integrated into federal resource management, provides answers to "frequently asked questions," and provides guidance. The website has a section on how federal agencies are using it and tools for stakeholder engagement, ecological assessment, integrating social measures, monetary valuation, and multi-criteria evaluation.

STRATEGIC GROWTH POLICY FOR THE NATIONAL WILDLIFE REFUGE SYSTEM The Fish and Wildlife Service (FWS) finalized a [policy](#) to implement a strategic approach to the growth of the National Wildlife Refuge System ([80 FR 2119](#)). The policy prioritizes acquisitions within existing refuge boundaries, expansion of existing refuges, and establishment of new refuges. It focuses protection measures on priority conservation features to make the most of limited resources. The policy identifies threatened and endangered species, migratory birds of conservation concern, and waterfowl (or the surrogate species that represent them) as priority conservation features. For more information, contact Brian Salem at (703) 358-2397.

OTHER

FACT CHECKING SCIENCE-BASED CLAIMS FactCheck.org launched [SciCheck](#), a new site that focuses exclusively on false and misleading scientific claims made by partisans to influence public policy. The new science feature was made possible by a grant from the Stanton Foundation, founded by the late Frank Stanton, president of CBS from 1946 to 1971.

THREATENED AND ENDANGERED SPECIES

RINGED SEAL The National Marine Fisheries Service [announced](#) the dates and locations of public hearings in Alaska on its [proposed rule](#) to designate critical habitat for the threatened Arctic subspecies (*Phoca hispida hispida*) of the [ringed seal](#) (*Phoca hispida*) ([80 FR 1618](#)). The public hearings were held/are scheduled for 28 JAN 15 (Nome); 2 FEB 15 (Anchorage); 17 FEB 15 (Kotzebue); 23 FEB 15 (Barrow); and 26 FEB 15 (Bethel). [Comments are due](#) 31 MAR 15. For more information, contact Tamara Olson at (907) 271-2373.

TOXICS

LEAD-BASED PAINT: TRAINING REQUIREMENTS EPA is proposing to revise training requirements associated with the 2008 [Lead Renovation, Repair, and Painting \(RRP\) rule](#) and the 1996 [Lead-based Paint \(LBP\) Activities rule](#) ([80 FR 1873](#)). EPA is proposing to eliminate the requirement that renovator refresher training have a hands-on component. The agency is also proposing to remove jurisdiction-specific certification and accreditation requirements under the LBP Activities program. In addition, EPA is proposing to add clarifying language to the requirements for training providers under both the RRP and LBP Activities programs. Comments are due 13 FEB 15. For more information, contact [Marc Edmonds](#) at (202) 566-0758.

TOXIC RELEASE INVENTORY EPA released the [2013 Toxics Release Inventory \(TRI\) National Analysis](#) report. The TRI report is available in a new interactive format that features analyses and interactive maps showing data at state, county, city, and zip code levels. For more information, contact [Rachel Deitz](#) at (202) 564-1807.

WASTE

RECYCLING: EXCLUSION FROM HAZARDOUS WASTE RULES EPA published a final rule revising several recycling-related provisions associated with the definition of a solid waste ([80 FR 1693](#)). The revisions are intended to ensure that recycling regulations encourage reclamation in a way that does not result in increased risk to human health and the environment. The revisions allow certain materials that would otherwise need to be managed as a hazardous waste to be recycled, as long as certain conditions are met. Under the exclusion, a facility that recycles the newly excluded materials (rather than dispose of them as hazardous waste) must send the material to a "verified recycler" that has obtained a variance from EPA or the authorized state. The revisions also add requirements for storage of recyclable materials (meet a new definition of "contained"), recordkeeping, and emergency preparedness and response. The final rule is effective 13 JUL 15. For more information, contact [Tracy Atagi](#) at (703) 208-8672.

WATER

SPILL RESPONSE EPA is proposing to amend rules governing the use of dispersants, certain chemical and biological agents, and other spill mitigating substances when responding to oil discharges into waters of the U.S. ([80 FR 3379](#)). The proposal includes amendments to requirements for notifications, monitoring, and data reporting. The proposed amendments establish monitoring requirements for underwater application of dispersants, dispersants used for an extended period of time, and dispersants used in cases of major oil discharges. The amendments are intended to ensure that On-Scene Coordinators (OSCs), Regional Response Teams (RRTs), and Area Committees (ACs) have sufficient information to support agent preauthorization or authorization of use decisions. Comments are due 22 APR 15. For more information, contact [Gregory Wilson](#) at (202) 564-7989 or view this [fact sheet](#).

GROUNDWATER PROTECTION STANDARDS FOR URANIUM MINING In advance of formal publication in the Federal Register, EPA is [proposing](#) new groundwater protection standards for a type of uranium mining referred to as uranium in-situ recovery (ISR) or in-situ leach uranium mining. The proposed rule would regulate byproduct materials resulting from uranium ISR. The proposed rule includes both surface and subsurface standards, with a major focus on groundwater protection, restoration, and stability.

DEFINITION OF WATERS OF THE U.S.: CONNECTIVITY REPORT EPA released the final report titled [Connectivity of Streams and Wetlands to Downstream Waters: A Review and Synthesis of the Scientific Evidence](#) (408 pages) (80 FR 2100). The report summarizes current understanding about the connectivity and mechanisms by which streams and wetlands affect the physical, chemical, and biological integrity of downstream waters. The report informs development of [a rule](#) proposed by EPA and the U.S. Army Corps of Engineers (USACE) intended to clarify the definition of the term “waters of the United States” under the CWA. The report addresses three main questions related to connectivity: What are the physical, chemical, and biological connections to, and effects of:

- ephemeral, intermittent, and perennial stream on downstream waters?
- riparian or floodplain wetlands and open-waters on downstream waters?
- wetlands and open-waters in non-floodplain settings on downstream waters?

For more information, contact [Laurie Alexander](#) at (703) 347-8630, or visit [EPA’s website](#) to view this [fact sheet](#).

ARSENIC IN GROUNDWATER AT PETROLEUM SPILL SITES A long-term field study by the U.S. Geological Survey has found increased concentration of arsenic in groundwater at a petroleum spill site. The study, which investigated natural attenuation of a petroleum hydrocarbon spill in a shallow aquifer, found that the breakdown of petroleum hydrocarbons underground can release naturally occurring arsenic into groundwater. While arsenic is naturally present in most soils and sediments at various concentrations, it is not commonly a health concern until it is mobilized by a chemical reaction and dissolves into groundwater. At the study site, arsenic concentrations in the hydrocarbon plume were as high as 230 micrograms per liter ($\mu\text{g/L}$), or 23 times the current drinking water standard of 10 $\mu\text{g/L}$. Arsenic concentrations in groundwater outside (upgradient and downgradient) of the plume were less than 10 $\mu\text{g/L}$. The study highlights the need for long-term monitoring of arsenic and other chemicals that pose a water quality concern in areas associated with petroleum hydrocarbon leaks and spills. For more information, visit the [study website](#) or read the [study abstract](#).

Professional Development

DoD TRAINING SOURCES

USACE PROSPECT TRAINING USACE announces course availability for the FY15 PROSPECT (i.e., Proponent-Sponsored Engineer Corps Training) program. Courses are open to all federal, state, county, and city employees and contractors. There are different registration processes for each entity. Please refer to the [Course Catalog](#) and [List of Classes and schedule](#) for details.

NAVY AND ISEERB ENVIRONMENTAL TRAINING The Navy and the Interservice Environmental Education Review Board (ISEERB) Environmental Training schedule is available. Course topics include environmental overview and management, law planning and sustainability, pollution prevention, restoration, conservation, supplemental and Internet/computer-based training, and more.

AIR FORCE CIVIL ENGINEERING SCHOOL TRAINING The Air Force Civil Engineering School offers a variety of environmental management courses and seminars, including ISEERB offerings. Courses offered by the Civil Engineer School are available to all military and civilian employees of the U.S. government, free of charges. Travel costs are borne by the student.

DEFENSE AND FEDERAL ENVIRONMENTAL TRAINING/AWARENESS The U.S. Army offers numerous environmental training courses (classroom and online). Explore training opportunities on the [US Army Environmental Command \(AEC\) website](#), which has links to training provided by DoD organizations.

FEDERAL TRAINING SOURCES

FEDERAL FACILITIES ENVIRONMENTAL STEWARDSHIP AND COMPLIANCE ASSISTANCE CENTER - [FedCenter.gov](#) is the federal government's home for comprehensive environmental stewardship, compliance assistance, and professional development information. FedCenter.gov provides a wide variety of information in the following areas:

- Program development (e.g., environmental management systems, green procurement program);
- Federal and state regulatory requirements for various facility activities;
- Regulatory Watch for information on new or changed laws or regulations;
- P2 opportunities and best management practices;
- EPA enforcement notices;
- Links to state environmental programs;
- Access to [environmental assistance](#);
- Access to free, FedCenter-sponsored courses:
 - [Environmental Compliance for Federal Laboratories](#) (FedCenter membership required);
 - [Environmental Management Systems](#) (FedCenter membership required);
 - [Underground Storage Tanks](#) (FedCenter membership required);
- Environmental [conferences](#), meetings, [training](#), and workshop information;
- Applicable laws and Executive Orders; and
- Industry sector-specific newsletters.

FedCenter also provides member assistance services such as:

- Collaboration tools for workgroups,
- Environmental reporting tools, and
- Daily newsletter and subscription services.

ONLINE TRAINING: SCHEDULED EVENTS

SERDP AND ESTCP WEBINAR SERIES The DoD environmental research and development funding programs ([SERDP and ESTCP](#)) are launching a [webinar series](#) to promote the transfer of innovative, cost-effective and sustainable solutions developed using SERDP and ESTCP funding. Live webinars will be offered every two weeks on Thursdays from 12:00 PM ET (9:00 AM PT) for 90 minutes. Most webinars will feature two 30-minute presentations and interactive question and answer sessions, on topics targeted for DoD and DOE audiences. Prior presentations are archived for viewing any time.

- Management of Contaminated Sediments Sites (20 NOV 14)
- Waste to Energy Technologies (4 DEC 14)
- Energy Audits (18 DEC 14)
- DNAPL (Dense Non-Aqueous Phase Liquid) Source Zone Management (8 JAN 15)
- Sustainable Materials (22 JAN 15)
- Acoustic Methods for Underwater Munitions (5 FEB 15)
- Solar Technologies (19 FEB 15)
- Lead Free Electronics (5 MAR 15)
- Bioremediation Approaches at Chlorinated Solvent Sites (19 MAR 15)
- Resource Conservation and Climate Change (26 MAR 15)

- Blast Noise Measurements and Community Response (16 APR 15)
- Munitions Mobility (7 MAY 15)
- Managing Muniton Constituents on Training Ranges (28 MAY 15)

FEMP eTRAINING COURSES The Federal Energy Management Program (FEMP) offers interactive, online eTraining courses to help federal agencies develop core competencies and comply with energy-efficiency and renewable-energy water-management and sustainability requirements. FEMP is partnering with the National Institute of Building Sciences' Whole Building Design Guide (WBDG) to host these comprehensive, FEMP-developed eTraining courses. [Promotional materials](#) are available to help federal agencies encourage the completion of FEMP's eTraining courses. For more information about FEMP eTraining courses, contact [Beverly Dyer](#) at (202) 586-7753. The following courses are available:

- [Advanced Electric Metering in Federal Facilities](#) (3.5 hours, .40 CEUs)
- [Building Automation Systems for Existing Federal Facilities](#) (3.5 hours, .40 CEUs)
- [Commissioning for Existing Federal Buildings](#) (4.5 hours, .50 CEUs)
- [Energy-Efficient Federal Purchasing](#) (4.5 hours, .50 CEUs)
- [Energy Savings Performance Contracting](#) (8.5 hours, .90 CEUs)
- [Federal On-Site Renewable Power Purchase Agreements](#) (2.5 hours, .30 CEUs)
- [Launching a Utility Energy Services Contract \(UESC\): Getting to Yes!](#) (3 hours, .40 CEUs)
- [Managing Water Assessment in Federal Facilities](#) (3.5 hours, .40 CEUs)
- [Measurement and Verification in ESPCs](#) (3 hours, .40 CEUs)
- [Planning an Energy Assessment for Federal Facilities](#) (4 hours, .50 CEUs)
- [Selecting, Implementing, and Funding Photovoltaic Systems in Federal Facilities](#) (3.5 hours, .40 CEUs)
- [Sustainable Institutional Change for Federal Facility Managers](#) (3 hours, .40 CEUs)
- [Utility Service Contracts and Energy Project Incentive Funds](#) (90 minutes)

ENERGY STAR WEBCASTS. Among the offerings:

- [Federal Guiding Principles Checklist](#) – This webcast shows federal energy and sustainability professionals how to use the ENERGY STAR® measurement and tracking tool, Portfolio Manager, to help ensure compliance with the Guiding Principles for High Performance Sustainable Buildings required by Executive Orders 13423 and 13514. The focus is on the Guiding Principles for Sustainable Existing Buildings.
- [Portfolio Manager 101](#) – This webcast demonstrates the core functionality of EPA's Energy Star Portfolio Manager tool. Attendees will learn to navigate the new Portfolio Manager, add a property and enter details, enter energy and water consumption data, share properties, generate performance reports to assess progress, and respond to data requests.
- [Portfolio Manager 201](#) – This webcast will explore advanced functionalities of EPA's Energy Star Portfolio Manager tool, including managing and tracking changes to property uses over time; using spreadsheet templates to update property data; setting goals and targets to plan energy improvements for properties; generating and using custom reports; and using the Sustainable Buildings Checklist.

CLIMATE CHANGE SCIENCE AND MANAGEMENT WEBINAR SERIES This [webinar series](#) was developed to inform scientists, land managers, and the public about potential and predicted climate change impacts on fish and wildlife and to help guide resource management decisions across the United States. Video recordings with closed captioning are made available one to two weeks after each presentation.

READINESS AND ENVIRONMENTAL PROTECTION INTEGRATION PROGRAM – Webinar Series The REPI Webinar Series is presented by DoD in partnership with the [Land Trust Alliance](#). This online series covers best practices, tutorials and knowledge sharing on REPI partnerships that support military mission and accelerate the pace and rate of

conservation. All webinars begin at 1:00 p.m. Eastern unless otherwise noted. Previously scheduled webinars are available anytime.

EPA SUSTAINABLE MATERIALS MANAGEMENT ACADEMY Learn about key issues, successful projects, and a variety of best management practices for creating waste management programs, from the series of live and archived webinars. Building on the familiar concept of [Reduce, Reuse, Recycle](#), sustainable materials management (SMM) is a systemic approach that seeks to reduce materials use and their associated environmental impacts over their entire life cycle, starting with extraction of natural resources and product design and ending with decisions on recycling or final disposal. The format is a formal presentation followed by a question and answer session.

ITRC INTERNET BASED TRAINING The Interstate Technology and Regulatory Council (ITRC) is a state-led coalition working with federal partners, industry, academia, and stakeholders to achieve regulatory acceptance of environmental technologies. In conjunction with EPA's Technology Innovation and Field Services Division, ITRC delivers training courses to reach a geographically dispersed audience of regulators, consultants, and other members of the environmental community. The training sessions last approximately two hours, cover technical and regulatory information specific to environmental technologies and innovative approaches, and are supported by consensus-based ITRC guidance documents. Visit the site often to view upcoming internet-based training events.

ONLINE TRAINING: AVAILABLE ANYTIME

CLIMATE READY WATER UTILITIES EPA's Climate Ready Water Utilities initiative assists the water sector (drinking water, wastewater, and stormwater utilities) in addressing impacts from climate change. This information helps utility owners and operators better prepare their systems for the impacts of climate change. The website has links to [tools and resources](#), new and recorded [training webinars](#), and more.

WATER'S IMPACT ON THE ENERGY SECTOR This on-demand webinar features Stacy Tellinghuisen, senior energy/water policy analyst at Western Resource Advocates, who shares new research on the national impacts of water scarcity on the energy sector, including how the expanded use of renewable energy and energy efficiency can help reduce the potential impacts that prolonged droughts will have on the energy sector.

EPA RCRA TRAINING RCRA-related online courses, seminars, webinars, podcasts, and videos are posted throughout EPA's waste website. Introductory and advanced courses are included for federal and state regulators, the regulated community, organizations, associations, and consumers interested in environmental laws, regulations, and implementation. Topics include general RCRA, RCRA corrective action, Environmental Management Systems (EMS), e-waste, groundwater characterization and cleanup, land revitalization, land disposal restrictions, sustainable materials management web academy, and environmental justice and RCRA permitting.

AREA SOURCE BOILER RULE VIDEO SERIES This [EPA video series](#) explaining the Area Source Boiler Rule consists of modules regarding:

- An overview of rule applicability, including specific rule requirements and compliance dates;
- How to conduct an energy assessment;
- How to conduct a boiler tune-up; and
- Recordkeeping and reporting requirements of the rule.

Area sources are commercial (e.g., laundries, apartments, hotels), institutional (e.g., schools, churches, medical centers, municipal buildings) or industrial (e.g., manufacturing, refining, processing, mining) facilities that emit or have the potential to emit less than 10 tons per year (tpy) of a single hazardous air pollutant, or less than 25 tpy combined hazardous air pollutants. The Area Source Boiler Rule affects boilers at these facilities that burn coal (including coal refuse, petroleum coke, or synthetic fuels derived from coal), oil or other liquid fuel, biomass, and non-waste materials.

BEST PRACTICES FOR COMPREHENSIVE WATER MANAGEMENT FOR FEDERAL FACILITIES This comprehensive water management training provides federal facility and energy managers with knowledge and skills to assist in meeting water-related legislative and executive order requirements. Learners will develop skills in increasing water efficiency and reducing water use through sound operations and maintenance practices and water-efficient technologies. Several methods for meeting needs for non-potable water through alternate water sources, such as rainwater harvesting, reclaimed wastewater, and gray water are discussed. Water metering is covered, as well as life cycle costing and establishing the overall economics for strategic water management.

PRELIMINARY ASSESSMENT AND SITE INSPECTION (PA/SI) WEBINAR SERIES The CERCLA Education Center (CEC) is offering archived versions of its nine-part Preliminary Assessment and Site Inspection (PA/SI) [webinar series](#). PA/SI is an intermediate training course designed for personnel who are required to compile, draft, and review PA, SI, and hazard ranking system (HRS) documentation records and packages submitted for sites proposed for the National Priorities List (NPL). More information is available at www.clu-in.org.

DISTRIBUTED-SCALE RENEWABLE ENERGY PROJECTS: FROM PLANNING TO PROJECT CLOSEOUT This 2.5 hour webinar focuses on the planning and implementation of distributed-scale renewable energy projects (i.e., those smaller than 10 megawatts). The on-demand course outlines a detailed 10-step process from technology screening to project closeout. It explores online tools and resources for renewable energy projects on federal sites.

EPA AIR POLLUTION TRAINING INSTITUTE (APTI) EPA's [Air Pollution Training Institute](#) (APTI) offers a variety of online self instructional courses and videos for air pollution professionals. Although APTI courses are designed for state and local government officials, the courses, webinars, and videos are available to anyone.

AVERT TUTORIAL EPA launched its new on-demand training on how to use its Avoided Emissions and generation tool (AVERT). AVERT estimates the potential of energy efficiency/renewable energy (EE/RE) programs to displace electricity system-related SO₂, NO_x, and CO₂ emissions in the continental United States. The tool can be used to evaluate county, state and regional level emissions displaced by energy efficiency and renewable energy programs without the need to specialized resources or electricity system expertise.

FEMP TRAINING SEARCH TOOL FEMP recently launched the FEMP Training Search, a web tool that lists free training opportunities to help agencies meet federal energy, water, and sustainability laws and requirements. The new search tool provides options to easily find and select training offerings by topic area, topic series, course format and type, and by level of difficulty—introductory (101), intermediate (201), and advanced (301).

EPA TMDL AND NPDES PERMIT TRAINING EPA developed three web-based training modules on topics related to TMDLs and NPDES permitting. The presentations are intended for TMDL developers and NPDES permitting staff to gain a better understanding of TMDL implementation through NPDES permits. Each module is offered as a recorded presentation that enables participants to review the material on demand in a self-paced environment. The modules are also available as unrecorded PowerPoint presentations with slides and scripts. Each recorded session is approximately 2 hours long.

Module 1: Understanding TMDLs: A Primer for NPDES Permit Writers

Module 2: Understanding Waste Load Allocation Implementation in Permits: A Primer for TMDL Developers

Module 3: Understanding TMDLs with Stormwater Sources and the NPDES Stormwater Permitting Process

CLASSROOM/INTERNET TRAINING SOURCES

EPA NPDES TRAINING COURSES AND WORKSHOPS Training courses, workshops, and webcasts explain the regulatory framework and technical considerations of the NPDES Permit program. They are designed for permit writers, dischargers, EPA officials, and other interested parties. Topics include vessel general permits, combined sewer overflows, energy management, green infrastructure, pesticides, pretreatment, sanitary sewer overflows, and stormwater.

How the Regional Offices Work for You

When used within the framework of ISO 14001, the *Western Region Review* can be part of an installation's procedures to satisfy Section 4.3.2 (Legal and other requirements) of ISO 14001. Information in the *Review* is intended for general guidance, and the reader should refer to cited source documents for more detailed information to determine the applicability and scope of the referenced legislation and regulations.

The US Army Regional Environmental and Energy Offices monitor state legislative and regulatory actions on your behalf. If a proposed state action has (1) critical mission impact; (2) conflicts with a federal requirement; and/or (3) a disproportionate effect on the Army or DoD, we coordinate with the potentially affected installations, commands, and/or other military Services to further assess the potential impact. If action is needed on a proposed measure we work with Army or Service regulatory experts to communicate DA/DoD position, coordinating with the affected installations and commands. Comments are combined from all parties in a single DoD/Army package and formally submitted to the state.

Want to comment on a rule or bill in the Review?

Please contact your Regional Environmental Coordinator listed in the Staff Directory.

The Army Regional Environmental and Energy Offices' close cooperation between the military and regional policymakers helps to resolve issues *before* they become laws and regulations. The REEOs monitor proposed state environmental and energy laws and regulations for impacts to installation missions. When legislation or a regulation important to the Army or DOD is being developed, REEOs work with the other military Services to offer language to support or oppose the issue.

To comment on an item in the *Western Review*, please contact the Regional Environmental Coordinator listed at the top of page 2 and/or in the [Staff Directory](#).

To be added to the Region 10 *Western Review* distribution list, email [Nancy Reese](#).
