

# Army Environmental Cleanup Strategy

## Foreword

I am pleased to present the Army's Environmental Cleanup Strategy. The Strategy provides a roadmap to guide the Army in attaining its environmental cleanup vision. It also establishes common objectives for ensuring consistency and accountability across the Army's cleanup program.

The Cleanup Strategy demonstrates our sustained commitment to address contamination resulting from past operations, and supports the objectives of Army Transformation. The Cleanup Strategy is an enduring document that will direct the development and implementation of future strategic plans.

As we look to the future, we must continue to emphasize performance based cleanup activities that protect human health and the environment while ensuring Army's lands are available to support our mission.
